📍 Istanbul/ Turkey

Technical skills

Back-End: ASP.NET using C#, Django using Python, Spring-Boot using Java

Front-End: Next.js, React, and React native using JS and TS, HTML, CSS, Bootstrap

Libraries/Frameworks: Formik, yup, Redux.

Databases: SQL Server, MySQL, MongoDB.

Tools: Git, Docker, Visual Studio, VSCode, Postman, Expo.

Experience

Arab American University | Part-time Lecturer | Oct 2024 – Now

Technical skills: Programming fundamentals C++, Python, Network, Database, Computer skills.

ERP Easy | Full-time Full-Stack developer | Feb 2024 – Oct 2024

Technical skills: ASP.NET Web API, VB.NET Windows Forms, SQL Server, TFS.

Jawwal | Full-time Field network auditor | Oct 2023 – Feb 2024

Technical skills: Auditing the technician's fiber optic networks.

Security System Company | Part-time Front-End developer | Jul 2022 – Now

Technical skills: React.js, React native, GitHub, Redux, Formik, MaterialUI, yup, Swagger, SQL Server.

ULTIMATE Turnkey Solutions | Fulltime Full-Stack developer | May 2022 – May 2023

Technical skills: ASP.net Web API, HTML, CSS, JS, BS5, SQL Server, GitHub, Figma.

Education

Üsküdar Üniversitesi | Masters with thesis in Cyber Security | Istanbul, Turkey | Oct 2021 – Oct 2023

AXSOS Academy | Full-Stack Developer Certificate | Ramallah, Palestine | Apr 2021 – Aug 2021

+530 coding hours in total (web fundamentals, data structures, and algorithms, Flask and Django, Spring Boot, MERN).

Arab American University | B.S in Computer Sciences | Jenin, Palestine | Oct 2016 – Feb 2021

Technical Projects

Online CV Portfolio | [Live](#) | [Backend repository](#) | [Frontend repository](#)

Developed a user-friendly Single Page Application (SPA) that allows individuals to create and manage personalized online CV portfolios. The platform enables users to display their professional background in a well-structured, visually appealing format. It also allows public access for viewing and downloading users' CVs without requiring an account. The project emphasizes simplicity, responsiveness, and accessibility for both creators and viewers.

Key features:

- 1- Dynamic portfolio creation and customization.
- 2- Public CV viewing and downloading.
- 3- Intuitive, responsive UI/UX for seamless user experience.
- 4- SPA architecture for fast navigation and interaction.

Tech Stack: ASP.NET Web API | SQL Server | Next.js | TypeScript | Tailwind CSS | Redux

Aluminum | [GitHub repository](#) (Private Repository: Access upon request).

Contributed as a Front-end Developer to the development of a cross-platform system using React and React Native. The application is designed to support aluminum factories and workshops by streamlining critical operations including measurement tracking, order management, scheduling, payment processing, and HR functionalities. The system delivers a scalable and user-friendly interface, tailored for both desktop and mobile environments, ensuring seamless workflow integration across all departments.

Key features:

- 1- Cross-platform support with responsive web and mobile interfaces.
- 2- Modular handling of business operations: order, measurements, HR, etc.
- 3- Dynamic scheduling and payment management (including checks).
- 4- Optimized UX for industrial and administrative use cases.

Tech Stack: React | React Native | Redux | Formik | Styled Components | REST APIs

E-Hospital | Private Project (Proprietary – Company Internal Use)

Worked as a Full-Stack Developer on a comprehensive desktop application designed to manage various aspects of hospital operations. The system supports functionalities such as patient and staff management, appointment scheduling, vendor coordination, inventory and stock control, and more. The project aimed to streamline administrative and clinical workflows, enhance data consistency, and improve overall hospital efficiency.

Key features:

- 1- Patient, doctor, and nurse record management.
- 2- Appointment booking and scheduling system
- 3- Vendor and medical stock management
- 4- Role-based access control and secure data handling

Tech Stack: VB | .NET (Windows Forms) | SQL Server | Entity Framework
